

## GROWING YOUR FARM PROFITS (GYFP)

### Identify the steps to reach your farm business goals

- Learn about current farm business management practices and resources
- Prioritize your farm business goals
- Develop an action plan to improve your profitability and success

## ENVIRONMENTAL FARM PLAN WORKSHOP (EFP)

### Improve the sustainability of your farm business

- Identify potential environmental risks
- Learn about legislation and Best Management Practices
- Develop an action plan

## BIOSECURITY WORKSHOP

### Protect your animal and plant health

- Understand the benefits of an on-farm biosecurity program
- Identify current practices that could be putting your farm at risk
- Work with a vet or certified crop advisor to enhance biosecurity protocols on your farm

## TRACEABILITY WORKSHOP

### Maximize your traceability system investment

- Understand how traceability can reduce costs, improve profit margins and increase market potential
- Evaluate how you currently collect and manage traceability information
- Identify methods for improving your traceability system

## FOOD SAFETY WORKSHOP

### Reduce food safety risks on your farm

- Learn best practices that reduce risk
- Assess your farm and develop a food safety action plan
- Open to all farm commodities, but most relevant to fresh fruit and vegetable producers with no formal food safety program in place
